

Tick Free™ Organic Insect Control

Tick Free™ Organic Insect Control both organic and kosher can be used year round. Not recommended for fruit trees or edible crops. Product does not cause discoloration.

Concentrate

Directions:

36oz Makes 300 Gallons / 12oz per 100 Gallons

Truck Tanks: Fill tank with water then add product to avoid foaming. Add entire bottle to make 300 gallons.
Mista Blowers/3 Gallon Backpack Sprayers: Add 1 oz to make 3 gallons. Shake well. We recommend spraying all grassy areas, under shrubs, wood piles, leafy areas and anywhere on property where it is shaded and moist. Can also be sprayed directly on swing sets and patios. Apply every 30-60 days depending on severity of infestation. **DO NOT DILUTE MORE THAN RECOMMENDED.** You can use more product per gallon for heavily infested areas. This will lower your total gallon production. Yard can be used within 15 minutes.

Garden Girls Repellents™ LLC is dedicated to develop products that effectively reduce pest damage without the use of chemicals and also asserts that it complies with EPA regulations for 25(b) exempt pesticides.

Active Ingredients: 60.3 %	Inert Ingredients: 39.7%
